

graph

The diagram illustrates a process flow. On the left, a light blue circle with a darker blue gradient and a thin grey border contains the word "graph" in a grey, lowercase, sans-serif font. A horizontal grey line extends from the right side of the circle. This line meets a vertical grey line, which then branches into four diagonal grey lines. These diagonal lines lead to a rectangular area on the right, bounded by two vertical grey lines. Inside this area, there are twelve diagonal bars arranged in three rows of four. The bars alternate in color: the first and third bars in each row are teal, while the second and fourth bars are purple. All bars are oriented diagonally from the bottom-left to the top-right.
